Summary

I am a Full-Stack Developer with 5 years of hands-on experience, now specializing in the modern JavaScript ecosystem (Next.js, React, TypeScript, Prisma). Having previously run my own web agency using PHP and WordPress, I have a strong foundation in building end-to-end projects and a deep understanding of user experience. I am now seeking a full-time role in a product-focused team where I can contribute to building modern projects and software.

Technologies & Skills

- **Languages:** TypeScript, JavaScript (ES6+), Node.js, PHP, SQL, HTML5, SCSS/CSS3
- **Frameworks & Libraries:** Next.js, React, Prisma, NextAuth.js, Tailwind CSS, Zustand, Zod
- **Databases & Platforms:** PostgreSQL, Supabase, Vercel, Git, GitHub, Docker, Redis

Projects

Entro - Full-Stack E-Commerce-Platform | Live Demo: ecommerce.stefan-luellmann.com | GitHub: github.com/OneDev49/stefan-luellmann-ecommerce-app

- Built and deployed a performant, dynamic, server-rendered E-Commerce Application using **Next.js**, strategically leveraging **SSG, ISR and SSR** for optimal page load times and user experience.
- Developed a secure Backend with a **RESTful API**, a relational **PostgreSQL** database and the **Prisma** ORM to manage all product, user and order data.
- Implemented a full user authentication system with **NextAuth.js**, including a protected multi-tab dashboard where users can manage their data, their payment methods and view their order history.
- Published a detailed **case study** on the project's architecture, data modeling, and performance strategies.

Personal Portfolio & Blog | Live Demo: stefan-luellmann.com | GitHub: github.com/OneDev49/stefan-luellmann-portfolio

- Developed a high-performance personal website, achieving a >95 Lighthouse score across all metrics by leveraging **Next.js** and **Static Site Generation** (SSG).
- Built a content-driven blog by parsing local **MDX** files, allowing for the combination of Markdown with **custom React components**.

Professional Experience

Founder & Web Developer | NordWebTec - Nienburg/Weser, Germany | 2022 - Present

- Managed the full project lifecycle for over 15 clients, from initial meetings to final deployment and maintenance, delivering reliable custom WordPress sites and plugins.
- Improved client site performance and load times by an average of 40% through targeted optimizations with PHP, JavaScript and advanced CSS.

Web Developer & Consultant (Pro-bono) | Various NGOs - Northern Macedonia & Turkey | 2020 - 2022

- Led the development and deployment of accessible (WCAG 2.1 compliant) websites for non-profit initiatives, enabling them to reach a wider audience.
- Provided technical consultation on web architecture and maintained existing digital platforms, ensuring stability and security.

Education

Abitur (University-Entrance Diploma), BBS Stadthagen, Stadthagen - 2020
